INTERNSHIP EXPERIENCE

BDreamz Global Solutions – Chennai | *Feb 2026 – Present*

Role: Full Stack Developer Intern

• Built end-to-end web applications using HTML, CSS, JavaScript, React, and backend technologies during a 3-month practical internship.

• Designed responsive, accessible user interfaces, implemented server-side logic, and handled database integration.

• Delivered scalable, user-friendly solutions with robust client-server API workflows.

FEATURED PROJECTS

Enterprise RAG & Knowledge Base (Full-Stack AI Application)

Tech Stack: React.js, Tailwind CSS, FastAPI, Python, Vector DB (Cosine + BM25), Anti-Hallucination Guardrails

• Built a zero-hallucination RAG knowledge base for enterprise documents (PDF, Markdown, CSV, TXT) with automatic page-level citations.

• Implemented hybrid retrieval using Reciprocal Rank Fusion (RRF) and 4-layer guardrails (Prompt Injection check, PII masking, Relevance Gate, and Faithfulness scoring).

Crypto Tracker – Frontend Application

Tech Stack: HTML5, CSS3, JavaScript (ES6+), React.js

• Developed a responsive cryptocurrency tracker with live pricing and historical trend tracking across days, months, and years.

• Integrated an AI chatbot assistant and built balance management features for income, expense, and real-time calculations.

Smart Health System – Full Stack Application

Tech Stack: Python, Django, Django REST Framework, React.js

• Built a full-stack task flow and health management system with modular Django REST Framework architecture.

• Created a responsive React SPA featuring reusable components, project boards, and team collaboration workflows.
